IWT Challenge Fund (1)

The **Illegal Wildlife Trade Challenge Fund (IWTCF)** is a **competitive grant scheme**, established in 2014. It is managed by the Department for Environment, Food and Rural Affairs (Defra) and funded by Defra with contributions from the Foreign Commonwealth and Development Office (FCDO).

The intended impact of the IWTCF is to provide scalable, repeatable and innovative solutions to reduce pressure on wildlife from illegal trade and, in doing so, reduce poverty in developing countries.

The fund is supported through Official Development Assistance (ODA) commonly known as overseas aid.

To date, IWTCF has committed £43 million to 136 projects around the world, in over 60 countries, since 2014.

IWT Challenge Fund (2)

To maximise impact, the UK takes a strategic approach to tackling the IWT agreed by global leaders at the IWT Conference Series. The fund supports practical projects which address one or more of the fund pillars of action:

- reducing demand for IWT products
- ensuring effective legal frameworks and deterrents
- strengthening law enforcement
- developing sustainable livelihoods to benefit people directly affected by IWT

Types of projects supported (1)

- Projects should address the illegal wildlife trade in any species of fauna, flora or fungi impacted by IWT
- Projects should work in **eligible countries** as outlined in the guidance
- **Innovation and scalability** – projects should test and pilot ideas with potential to scale
- **Capability and capacity** – projects should include activities, structures and/or partnerships that will enhance capacity in eligible countries
- **Evidence and best practice** – projects should be based on best available evidence and/or seek to enhance evidence base and develop best practice
- **IWT and poverty reduction** – **all projects** should clearly describe (and measure) their impact on both IWT and poverty reduction

Types of projects supported (2)

New for this round – three different schemes each with different application forms.

Grant	Amount	Duration	Estimated # award	Type of project
Extra	£600,000 to £1.5 mil	2-4 years	1-2	Demonstrating a clear scaling pathway, building on good evidence from smaller projects to scale further
Main	£75,000 to £600,000	1-3 years	8-15	Providing good evidence, expected to deliver strong results, and demonstrate the potential to scale
Evidence	£20,000 to £100,000	Up to 2 years	<10	Focussed on evidence gathering to design IWT interventions

For Round 9, all projects should start on or after 1 April 2023.

Project requirements

The application guidance outlines all key requirements including:

- Gender equality
- Ethics
- Safeguarding
- Human rights
- Open access
- Monitoring and Evaluation
- Risk Framework

Role of UK Embassies and British High Commissions (1)

- We ask all applicants to engage with UK Embassies and British High Commissions in their target countries. If you have not made contact before submitting your Stage 1 application you need to explain **why not**.
- Want to ensure projects engage with Embassies/High Commissions so they are aware of your proposed work and because they can provide useful national context and ensure coherence of UK Government supported programmes in the countries IWTCF projects work in
- Defra will reach out after Stage 1 notifying Embassies/High Commissions of applicants, and may reach out with more specific queries at Stage 2.

Role of UK Embassies and British High Commissions (2)

UK Embassies/British High Commissions can support applicants:

- At Stage 1 by...**engaging with their emails** when they reach out
- At Stage 2 by...**providing written advice and a LoS** if appropriate
- Once funded by...helping **linking up with other UK Government supported programmes** and relevant in-country networks (particularly for those organisations not already based in-country)

We recognise that different Embassies/High Commissions have different capacity to engage. At Stage 2, if applicants can't get written advice or don't get a response, it can be helpful to attach evidence that this was requested to your application (**N.B. we don't ask for this evidence at Stage 1**).

For applicants who aren't sure how to contact relevant UK Embassies/High Commissions for their project country, info is provided in the guidance.

Questions

Is it encouraged to resubmit previous IWT Challenge Fund applications that have been revised based on the feedback received?

Do proposals always need to have a focal species or can they investigate at a higher level of operation?

What are the requirements for funding newly registered companies?

What example solution is the committee looking for when addressing helping those living below poverty?

We have previously won grants from Defra, one of which is active. Are we eligible to apply for an Extra grant?
